## Software Engineer

Istanbul, TR | <https://www.linkedin.com/in/emirmertoglu> | +905303001197 | [emir.mertoglu.97@gmail.com](mailto:emir.mertoglu.97@gmail.com)

### PROFILE

I'm a Software Engineer with experience in optimizing performance and scalability. Expert in React and frontend development. Focused on improving user experience and system reliability. Skilled in solving technical challenges and eager to learn and mentor. Committed to delivering high-quality solutions that drive success.

### WORK EXPERIENCE

#### ERKA Group

Software Engineer

Istanbul, TR

July 2022 – Present

- Led performance optimization of projects and designed high-performance solutions to improve frontend performance, user experience, and SEO using Next.js.
- Ensured system scalability, stability, and reliability by resolving bottlenecks and maintaining stable projects using React, Next.js, and server-side rendering.
- Mentored team members on best practices for React, performance optimization, and modern technologies like Test Driven Development and Jest.
- Developed and documented React components with Material UI for projects such as "Turkish Airlines Holidays", "Bizigo", and "VakıfBank MilPlus" tested using Storybook.
- Managed app state with Context API and integrated RESTful APIs via Axios.
- Configured CI/CD operations with Docker and Bitbucket pipelines.
- Created responsive HTML emails using MJML.

#### TEKROM Technology

Software Engineer

Istanbul, TR

February 2022 – May 2022

- Developed landing pages for products like "Nildesk", "Fig.mobi", "Onlivesale", and "ConnectProf" using JavaScript, HTML5, and CSS3.
- Managed projects independently from setup to deployment.
- Collaborated with designers and product managers to enhance teamwork skills.

#### T-Soft E-Commerce

Software Engineer

Istanbul, TR

February 2022 – May 2022

- Developed main and subpages with modern web development techniques using JavaScript, HTML5, and CSS3.
- Achieved 100% Google Lighthouse score, demonstrating SEO expertise.
- Collaborated with team leads and used Git for version control.
- Translated design concepts into standard-compliant code.

#### Nutima Code

Software Engineer

Istanbul, TR

March 2021 – April 2021

- Developed and published browser extensions.
- Created Vue.js components, converted them to npm packages, and published them to the community.

### EDUCATION

#### Mugla Sitki Kocman University

BS in Information Systems Engineering (GPA: 3.63)

Mugla, TR

-  Graduated as the top-ranking student in both department and faculty.
- Organizations: Google Developer Group (GDG) Mugla, Google Developer Student Clubs (GDSC) MSKU
- Awards: Chancellor's Honors List, Dean's Honors List.
