Professional Experience

Bootcamp Participant, Erka React Bootcamp

05/2022 – 05/2022

At the end of the Bootcamp, I've learned the below things:

- Components and Props
- State and Lifecycle
- Forms
- Context API
- React Router

Intern Front-End Developer, T-Soft

02/2022 – 05/2022

- I build thoroughly modern and responsive websites.
- Mainly focused on: SASS, JavaScript, and our UI library based on Skeleton.

Paramedic,

04/2019 – 02/2022

Muğla Sıtkı Koçman University Training and Research Hospital

I used to work as a nurse at the emergency care service until I complete my bachelor's degree but I quit the job before completing my bachelor's degree because I want to be focused on my new career path.

Bootcamp Participant, Gelecek Varlık FullStack Bootcamp

11/2021 – 01/2022

At the end of the Bootcamp, I've learned the below things:

- .NET Core and React.
- N-Tier Architecture.
- Restful API.

Intern Front-End Developer, Nutima Code

03/2021 – 10/2021

- I built thoroughly modern and responsive websites.
- Mainly focused on: JavaScript and Vue.js.

Skills

- | | | | |
|-----------|----------|--------------|------------|
| • React | • Vue.js | • JavaScript | • jQuery |
| • Node.js | • HTML5 | • CSS3 | • SASS |
| • Gulp | • Git | • JSON | • Firebase |

Profile

I have hands-on experience efficiently coding websites and applications using modern HTML, CSS, and JavaScript.

Building state-of-the-art, easy-to-use, user-friendly websites and applications is truly a passion of mine and I am confident I would be an excellent addition to the organization that I work for. In addition to my knowledge base, I actively seek out new technologies and stay up-to-date on industry trends and advancements.

Projects

Vue Color Picker

A super simple color picker component for Vue.js.

[Click to preview the project.](#) 

V-Book

A web app where you can view the top 100 classical books. I use Vue.js & Vue Router & Json-Server with this project

Vue Web Form

A web form based on Vue.js v3.

[Click to preview the project.](#) 

Vue Kanban Board

A Kanban Board Todo App with Vue.js 2, Vue Router, Firebase, and Bootstrap-Vue.

[Click to preview the project.](#) 

Reaction Timer

A reaction game built with Vue.js v3.

[Click here to play the game.](#) 

Vue ToDo App

Super basic Vue.js 3 Todo App coded with Composition API.

[Click to preview the project.](#) 

COVID-19 Turkey Data

My goal in this project is to analyze the coronavirus data in the data set to make it meaningful and visualize it.

[Kaggle link](#) 

Stuvent Mobile, for IEEE MadC | Mobile Application Development Contest

My goal in this project is to announce the events that will take place at the university through the mobile application.

Organisations

GDG Mugla, Organizer and Developer  09/2020 – 03/2021

When you join a Google Developer Group, you'll have the opportunity to meet local developers with similar interests in technology. A GDG meetup event includes talks on a wide range of technical topics where you can learn new skills through hands-on workshops. The community prides itself on being an inclusive environment where everyone and anyone interested in tech - from beginner developers to experienced professionals - all are welcome to join.

- I organized and helped with some events.
- I developed the GDG&WTM Mugla website.

DSC MSKU, Core Team Member  08/2019 – 08/2020

Developer Student Clubs are university-based community groups for students interested in Google developer technologies. By joining a DSC, students grow their knowledge in a peer-to-peer learning environment and build solutions for local businesses and their community.

- I organized and helped with some events.

Education

Information Systems Engineering, 09/2018 – 06/2022

Mugla Sitki Kocman University

GPA: 3.63

I graduated from my university with the first place in my department and my faculty.

Management of Health Institutions, Anadolu University 09/2015 – 06/2018

Paramedic, Nisantasi University 09/2015 – 06/2017
