🪪 Profile

I have hands-on experience efficiently coding websites and applications using modern JavaScript, HTML, and CSS.

Building state-of-the-art, easy-to-use, user-friendly websites and applications is truly a passion of mine, and I am confident I would be an excellent addition to the organization where I work. In addition to my knowledge base, I actively seek out new technologies and stay up-to-date on industry trends and advancements.

💼 Professional Experience

Software Engineer, ERKA Group ⬈   07/2022 – present

My role in ERKA Group,
- Developing and maintaining reusable components with React.js, JavaScript, Material UI, and PostCSS
- SSR operations with Next.js
- State management with Context API
- Form management with Formik, React Hook Form, and Yup
- Request operations with Axios
- HTML mailing with MJML
- And lots of 3rd parties JavaScript libraries

Intern Front-End Developer, TEKROM Technology ⬈   02/2022 – 03/2022

My role in TEKROM is coding web pages of the company projects with these features,
- JavaScript for reactivity
- SASS with BEM methodology for meaningful CSS
- SEO friendly
- Fully responsive on different screen sizes
- HTML Mailing

Intern Front-End Developer, T-Soft ⬈   02/2022 – 06/2022

My role in T-Soft, contributing to developing the T-Soft main page and all of its subpages with the new UI design from zero with these features,
- JavaScript for reactivity
- SASS with BEM methodology for meaningful CSS
- SEO friendly
- Fully responsive on different screen sizes

Intern Front-End Developer, Nutima Code ⬈   03/2021 – 10/2021

I have developed browser extensions and packages that the company needs with the following features,
- Vue.js and JavaScript for reactivity
- SASS for meaningful CSS

🧩 Skills

- Next.js
- React
- Redux.js
- Vue.Js
- JavaScript
- Tailwind CSS
- Material UI
- Bootstrap
- PostCSS
- Sass
- Git

📂 Projects

Turkish Airlines Holidays - Vacation Package Deals ⧉
Turkish Airlines Holidays is a search engine and travel agency that allows people to research and book travel options like flights, hotels, and car rentals.

Bizigo - Corporate Travels are More Than Planned and Scheduled With Bizigo ⧉
Bizigo is a modern travel platform ensuring single-point tracking, managing, reporting, invoicing, and supporting your corporate travel processes in a few minutes.

Nildesk - No Problem, There is A Solution ⧉
Establish strong relationships with your customers by providing the most effective responses to your customer's questions or problems with Nildesk.

Fig.mobi - The Best Way To Perfect Your Application ⧉
Get started right now with our mobile app editor and stylish design alternatives. No coding experience is required! Try our magic that turns visitors into customers.

Onlivesale - A Brand New Experience! ⧉
Discover the Live Broadcast Shopping Experience with Onlivesale, watch, and buy!

ConnectProf - Integration & Marketing Solutions ⧉
ConnectProf is integration software where companies selling digital media can manage their products, orders, and advertisements through a single panel.

T-Soft E-commerce Software - E Commerce Packages ⧉
We are the leader in the Turkish e-commerce market and we provide software services to the best companies.

Shopify Details ⧉
This extension shows you the main domain name, theme name, and theme id of a Shopify site on the Chrome Dev Console.

Vue Color Picker Basic ⧉
I made a Vue.js color picker component for the theme color-choosing of our project and shared it as an open-source package on npm.

</> Bootcamps

Erka React Bootcamp ⧉   05/2022 – 06/2022
At the end of the Bootcamp, I've learned the below things:
- Components and Props
- State and Lifecycle
- Forms
- Context API
- React Router

Gelecek Varlık FullStack Bootcamp ⧉   11/2021 – 01/2022

At the end of the Bootcamp, I've learned the below things:

- React.js
- .NET Core
- N-Tier Architecture
- RESTful API

🏛 Organizations

GDG Mugla, Organizer and Developer ⧉   09/2020 – 03/2021

When you join a Google Developer Group, you'll have the opportunity to meet local developers with similar interests in technology. A GDG meetup event includes talks on a wide range of technical topics where you can learn new skills through hands-on workshops. The community prides itself on being an inclusive environment where everyone and anyone interested in tech - from beginner developers to experienced professionals - all are welcome to join.

- I organized and helped with some events.
- I developed the GDG&WTM Mugla website.

DSC MSKU, Core Team Member ⧉   08/2019 – 08/2020

Developer Student Clubs are university-based community groups for students interested in Google developer technologies. By joining a DSC, students grow their knowledge in a peer-to-peer learning environment and build solutions for local businesses and their community.

- I organized and helped with some events.

🎓 Education

Information Systems Engineering,   09/2018 – 06/2022

Mugla Sitki Kocman University

Achieved the first rank in both department and faculty at university graduation, demonstrating strong academic performance and dedication to studies.

GPA: 3.63

🎖 Awards

Certificate of Achievement, Prof. Dr. Hüseyin ÇİÇEK   06/2022

I congratulate your academic performance at our university, your efforts to be entrepreneurial, innovative and individuals with high national awareness, and I wish you a life full of success with the belief that you will always work hard in line with our country's strong Turkey ideal.

Certificate of Achievement, Prof. Dr. Hilmi TOKER   01/2022

I congratulate you on your project titled "E-Parent Artificial Intelligence Supported Baby Growth Application", which was deemed worthy of support within the scope of "TÜBİTAK 2209/A University Students Research Projects Support Program" and wish you continued success.
